

Sparse vectors: high-dimensional and with many zeros (“empty” features).
The **information is “sparse”** and very much **“discrete”**

[0. 0. 0. 1. 1. 0. 0. 0. 0. 0. 1. 0. 0. 0.]

Dense vectors: **distributed semantics** (the information is more **“continuous”**)

[0.23. 0.12. 0.21. 0.14. 0.17. 0.03]
